Hosting 32 - Quick Start Guide

Get your darkweb website up and running in 5 easy steps!

> ⚠ **BEFORE YOU START**
>
> You MUST have Tor Browser installed to access our website.
>
> If you don't have it yet, download it from: **https://www.torproject.org**

Step 1: Download Tor Browser

1. Go to **https://www.torproject.org** on your regular browser
2. Click "Download Tor Browser"
3. Install it on your computer
4. Open Tor Browser and wait for it to connect

Note: Tor Browser is required to access .onion websites. Regular browsers (Chrome, Firefox, Safari) cannot access .onion addresses.

Step 2: Visit Our Website

Once Tor Browser is connected, copy and paste this address into the Tor Browser:

```
http://hosting32emwoz7nsehecew2cb7alcxu6bqqkihk77rccsrkyknm5jqd.onion
```

Important: This link ONLY works in Tor Browser, not regular browsers!

Step 3: Choose Your Hosting Package

Select the package that best fits your needs:

- **Starter ($50/month)** - Perfect for small sites and beginners
- **Business ($100/month)** - Great for shops and growing sites
- **Professional ($150/month)** - Best for high-traffic sites and multiple domains

Click "Get Started" on your chosen package.

Step 4: Complete Payment

1. Enter your Tor-based email address (e.g., yourname@torbox3uiot6wchz.onion)
2. Select your preferred cryptocurrency (BTC, XMR, ETH, LTC, SOL, TRX, USDT)
3. You'll receive a payment address and exact amount to send
4. Send the payment from your crypto wallet
5. Wait for confirmation (10-60 minutes depending on blockchain)

Step 5: Receive Setup Instructions

After payment confirmation:

- You'll receive login credentials via email within 24 hours
- Access your Tor-only control panel
- Start building your website immediately!

That's It! You're Ready to Go!

Your darkweb hosting will be set up the same day, and you'll have full access to:

- ✓ Your .onion domain

- ✓ Control panel (accessible only via Tor)
- ✓ File management
- ✓ Database access
- ✓ 24/7 technical support
